

Help for Print at Home Tickets

Step 1: Click on "Main Arena"

Step 2: Click on "Box Office"

Step 3: Click on "Account Login"

Step 4: Sign in with the email and password used when account was created.

Step 5: Click "My Account"

Step 6: Click "Reissue Print at Home tickets"

Step 7: Check all boxes that apply to the missing tickets. If you did not receive the second email when you originally placed your order, then you will want to click all boxes for the event. If you lost a ticket from your order which you have already printed, check the box that is specific to the missing seat.

Step 8: Check "Reissue my Print at Home tickets to my email."

Step 9: Check your email for the new PDF file.

Step 10: Open PDF file, print out your Print at Home tickets, and enjoy the show!

Please note: Once you have printed out your tickets, please DO NOT reopen the PDF file to view them on the monitor. Reopening the file can cancel out your current barcodes. Also, once you have printed out your tickets and you decide to reprint them, this will cancel out the barcodes of the first printing. Please destroy the first printing since those tickets will then be invalid and will not gain you entry into the event.
