

SPORTING ACTIVITIES
COVID-19 Requirements

Updated: 01/07/2021

- 1) Patrons are not allowed to enter the Everett Community Ice Rink if you have been diagnosed with COVID-19 (have not recovered or are still within the 14-day quarantine), had symptoms of COVID-19 (within the last 24 hours), or had contact with a person that has or is suspected to have COVID-19 (within the last 14 days).
- 2) Everett Community Ice Rink requires a 14-day quarantine for any person or team that travels out of Washington State prior to returning to the facility.
- 3) Skaters and coaches are asked to take your temperature prior to leaving your home and entering the building. Anyone with a temperature of 100.4 degrees or higher, or those exhibiting [symptoms of COVID-19](#) are asked to stay home and will be refused entry. If either of the two apply to you and you are signed up to come in, please call the rink and let us know that you will not be able to make it in so we can open that slot for others to use.
- 4) All participants will have a temperature screening completed by Everett Community Ice Rink staff immediately at the entrance. Anyone with a temperature of 100.4 degrees or higher will be denied entry.
- 5) Skaters will need to agree to follow our appropriate social distancing “staging/get ready” areas. These areas will give participants an area to put on skates and helmets when applicable. Skaters must also follow social distancing while on the ice.
- 6) Individuals may use the facility for no longer than 45 minutes at a time.
- 7) After each session, all participants will have 15 minutes to leave the premises. This will allow staff to clean and the next session to arrive 15 minutes before their session. No loitering.
- 8) Each guest that enters our facility will need to sign in and provide contact information for documentation purposes.
- 9) No spectators allowed.
 - a. For participants 10 years of age and younger, one adult parent/guardian/caregiver can enter to help their participant finish getting ready to go on the ice. Then the parent will need to leave the building and will be allowed back in 5 minutes before the end of the ice time so they can help their participant get ready to leave the building. All policies in this document apply to any parent/guardian/caregiver as well.

- 10) Participants need to come dressed and ready to their fullest capability prior to entering the rink. ALL locker rooms will remain closed during this time period. Customers must wait in their cars or otherwise away from the facility until they are allowed to arrive for the start of their ice time.
- 11) Masks are required to enter facility and must be worn at all times.
 - a. If anyone is observed without a mask, they will be provided one warning. On a second infraction, they will be removed from the facility and indefinitely suspended from the facility.
- 12) You must bring your own water bottle and please fill up prior to arriving at the rink – water fountains will be turned off.
- 13) In addition to being provided with these guidelines, each on-ice participant (to include instructors) will be emailed a Participant Release/Waiver form prior to your scheduled ice time. Participants will be required to bring this form with them for their first ice session. Participants will not be permitted in the building without providing the facility with a signed copy of this document. This will be kept on file and you will not be required to sign one for each session.
- 14) Instructors will be required to produce a training/lesson plan-for each ice session blocked and for each participant (if they are different) for your ice slot prior to stepping on the ice. Neither instructors nor participants will be permitted on the ice without this plan.
- 15) All coaches/trainers/instructors are required to complete an [online screening questionnaire](#) in advance or immediately upon entry on an available paper version. An onsite temperature screening will also be completed for trainers/coaches at the Community Ice Rink Entrance following the Angel Of The Winds Arena Temperature Screening Policy – Ice Rink Coaches/Trainers/Instructors. Anyone with a temperature of 100.4 degrees or higher will be denied entry.
- 16) All trainers/coaches, athletes, referees, spectators, and any other paid or volunteer staff must practice good hygiene including washing their hands frequently and covering their sneezes and coughs. Wash hands often with soap and water for at least 20 seconds before and after each practice, game or training activity, especially after touching shared objects or blowing your nose, coughing, or sneezing.
- 17) We will have monitors to assure that safe distancing is maintained on the ice and in the waiting area. We will have sanitizing equipment and materials and staff will use them to sanitize after each session where the public has been. Cleaning will happen prior to opening and closing, as well as during and between scheduled programs.
